

Role: Sustainability Executive

Location: London

Status: Full Time Employee

Band: 1 (Executive)

Reporting to: Sustainability Manager

Formula E

Formula E is a new FIA single-seater championship and the world's first fully-electric racing series. The fourth season of the 2017/18 FIA Formula E Championship sees 10 teams and 20 drivers go wheel-to-wheel in 11 cities spanning five continents in the fight to be crowned Formula E champion. The electric street racing series sparks into life on December 2nd in Hong Kong, with the season finale double-header in Montreal on July 28th and 29th 2018. Formula E is here to reinvent racing and break the conventions of our sport to appeal to a mass market audience. Formula E races on city-centre circuits creating a unique and exciting series designed to appeal to a new generation of racing fans.

The championship represents a vision for the future of the motor industry, serving as a platform to showcase the latest innovations in electric vehicle technology and alternative energy solutions. Future seasons will see the regulations open up further allowing manufacturers to focus on the development of motor and battery components, which in turn will filter down to everyday contemporary electric road vehicles.

Working at Formula E

At Formula E we have created an environment that supports our colleagues to perform at their best. We are innovative, curious and we love the world we live in which is why we value sustainability. We believe that work should be fun and whilst we are passionate about delivery we are one team and supporting each other is key to our success.

Your role

As a Sustainability executive you will work with the sustainability manager to ensure long-term environmental and social value is at the core of Formula E's strategic vision.
